Power Shift

Where India Stands and How
Companies Can Lead Globally

www.brainiac.co.in

★ ABOUT THE EVENT

Artificial Intelligence is transforming industries, economies, and global competitiveness. As AI adoption accelerates worldwide, an important question arises: **Where does India truly stand—and how can Indian companies lead globally?**

To create practical awareness among industry leaders, startups, MSMEs, and R&D teams, **Brainiac IP Solutions** is hosting **AI Power Shift - Where India Stands and How Companies Can Lead Globally.**

This leadership event will explore India's position in AI innovation and patents, what is working, what gaps remain, and how companies can build strong IP and technology strategies for global markets. Leading CTOs, AI innovators, and policy experts will share real-world insights to help Indian businesses move from AI adoption to AI leadership.

01
